The Eastern Complication.

By Cable to the News

CONSTANTINOPLE, Nov. 9. — The Porte on Thursday addressed two very energetic notes to Prince Labanoff, the Russian embassador at Constantinople. One refusing his denial of Russian connivance at the Bulgarian insurrection, and the other demanding a reparation of Mahomedan refugees and evacuation of the Turkish territory.

A Constantinople despatch says a Greek vessel wasseized in the Dardenelles by pirates, who killed the sailors. The vessel was rescued by boats from the British fleets but the pirates escaped with their booty. They are said to be deserters from the Turkish army.

A Vienna despatch says semi-official assurances are circulated that a complete Anglo-Austrian agreement exists concerning the treaty of Berlin, and that Count Andrassy will convey this assurance to the delegates.

There was a killing frost in two counties, on Oct. 31st doing, however, but little damage. Six replies report about half the crop picked, and that the balance will be picked by December 10th. 16 replies report two-thirds of a crop picked, and that the balance will be picked by November, 15th, or December 1st. Six replies report the yield per acre about the same as last year. Four report it as about five per cent greater, and twelve as about 15 per cent less,

Richmond Fair the Best.

Charlotte Home.

We visted the Fair grounds near Richmond last week, and the collection of blooded stock was ahead of anything that we have seen in our Southern country. The exhibition of sheep, hogs, and cattle, was very fine, but a great many of the best animals was sent from Pennsylvania and Maryland. The art gallery and the ladies' department were very attractive, and the amount of improved machinery, plows and agricultural implements, was large and complete. The display of cereals was not worthy of special attention, for Virginia is not a grain State. We could far surpass it here in this particular, branch of husbandry. Taken as a whole the fair was a good one and reflected much credit on the Agricultural and mechanical enterprise of the State.

Richmond has the appearance of a city full of energy, business and commercial thrift, and the shop windows and array of mercantile wares will compare favorably with the larger cities North. The tobacco factories and the iron works that give employment to so many hands, are the principal sources of her wealth. Virginia is a tobacco State, and manufactures most of the raw material raised. That is wherein she surpasses the Carolinas, for while cotton is our great staple, we have few factories to convert it into goods, and hence send it North for this purpose.

ASHEVILLE.

Federal Court--Hon. R. B Vance--Knights of Honor.

Correspondence of the News.

ASHEVILLE, N. C., Nov. 5th.

An immese crowd is in attendance upon the Federal court, which convened here to-day, His Honor, Judge Dick presiding. The charge to the grand jury was a masterly exposition of the law. There are 56 criminal cases in the district court and 25 civil cases in the circuit court. At least two hundred new cases are anticipated, quite a number of the "moon-shiners" accepting the amnesty order of Attorney General Devens.

Owing to the election, Judge Avery will not open his court until Wednesday. The confliction of the Superior and Federal court is a great annoyance to the numerous host of legal gentlemen in attendance.

The highest possible compliment will be paid the Hon. R. B. Vance today by unanimously re-electing him to that seat in Congress which he has occupied for the last six years with so much credit to himself and constituents.

The Knights of Honor gave a public exhibition at the court house last night. The spacious hall was crowded to its utmost capacity with beautiful women most fashionably attired, and a mixed multitude of men. Beside the ex-Senator sat the burly "moon-shiners." Upon the same seat was the shrewd lawyer, the fastidious clerk, and the most *verdant* specimen of our mountain gorges. Mr. John J. Hill was the orator of the night, acquitting himself with much honor upon the history and merits of the order. It was an enjoyable affair. LENORE.

A Monkey Hangs Himself Because a Lady Wouldn't Marry Him.

Mme. Ratazza, is in fact, a remarkable person; she is a fine musician, a clever writer and wonderful diplomatist; she is made up of caprice and imagination, and, when she desires to indulge in amusement, her talents come to her aid, and assist in creating some fantastic and original. But, in indulging her whims, she is indifferent as to who shares her fetes. Some years ago, when Mme. Ratezzi had her summer residence at Aix, and was more particular as to whom she invited, a gentleman dined with her, in company with a number of friends. He was much amused to perceive among the waiters a large monkey dressed in livery, and who waited on the table, changing the plates and performing other services with the gravity and adroitness of the regular servants. Before admitting the monkey to the dining room, the hostess would cast a glance up and down the table to see if there were any bald heads present, for the monkey, without any apparent reason, invariably, after removing a plate, would slap it down on the nearest bald head until it was broken. The creature, it seems, was very intelligent, and his mistress was very much attached to him. The following morning after dinner, the gentleman returned to the house to call, when he found everybody in tears In answer to his questions, a servant pointed to an object hanging before the princess' window. On examination he found it to be the monkey, who, it was said, had fallen in love with his mistress, and, in jealousy and despair, hanged himself.

The Defunct Party.

Philadelphi Bulletin.

To the "National Greenback" party we may say, "Hail and farewell!" It has probably polled its last vote and encountered its final defeat. It was born of dishonesty and ignorance, and its purpose was to achieve national dishonor. The intelligent rascals who taught its pernicous doctrines to gain profit by betrayal of the public faith, have learned that the American people are neither knaves or fools, and that the hard times have not seared the popular conscience

Baltimore Sun.

The so-called "greenback" movement—that unknown factor in the politics of the country which was to revolutionize everything and lead to a new organization of parties—has proved less formidable than the most ardent friends of honest money dared to hope. Instead of sweeping the country like a "tidal wave" it has only engulfed the unfortunate politicians who trusted to it to waft them into place and power.

Of Course.

Of course, in spite of these achievements, the next Congress will be Democratic. The gains, substantial though they be, are not large enough to destroy the present majority in the House.

November Stars.

The clear weather which usually prevails in September and October and frequently the greater part of November affords nearly as many opportunities for observing astronomical phenomena as occur during the remaining months of the year. Owing, however, to the bright moonlight during the last two weeks stars below the third magnitude were invisible to the naked eye, and the heavens appeared comparatively blank. As it is now the dark of the moon the sky for the remainder of this month will present an usually interesting appearance.

Jupiter, the largest of the planets, shines with peculiar brilliancy in the south and southwest during the first hours of the night, while Saturn, the ring planet, may be observed in the east immediately after dark and is visible the whole night.

Venus, now the morning star, rises about an hour before the sun, while Mars, which attracted so much attention a year ago, is almost immersed in the rays of the sun and is gradually decreasing in brightness.

About eight o'clock Capella may be seen in the northeast, a little above the horizon, while Vega in the Harp is almost directly overhead. This star is remarkable for its blue color, and is one of the few whose distance has been approximately determined. The seven stars or Pleiades, the guides of the ancient mariners in the Mediterranean and Black Seas, are just appearing above the horizon in the east, while Arcutrus, the brightest star in the northern sky, is sitting in the west.

At ten o'clock Castor and Pollux may be observed in the northeast and Orion in the east, while the Great Bear is seen nearly below the pole. Sirius, the brightest star in the heavens, now rises near midnight, but about the middle of November can be seen at ten o'clock. On the 31st inst. Jupiter will be in conjunction with the Moon and Mercury, the shy planet, will be at a short distance from the same luminary the last of November.

Franklin County Matters. Important Decision.

Free Lance.

Wednesday and Thursday of last week were consumed in hearing before Judge Kerr the case of the county of Franklin vs J C Wynne, Sheriff, and his surities, removed to Granville. The county was represented by C. M. Cooke, Esq. The Sheriff and surities by Messrs. T. C. Fuller and T. B. Venable. Sheriff Wynne had been sued on his official bond for about $9000 due for the year 1877, and judgment was obtained against him and his surities in the sum of $1.504 37, unlisted taxes, known as schedule "B."

Another judgment was obtained of $7.655.42, but only against the Sheriff in person. His Honor having decided that his surities were not liable, for the reason that the Board of Commissioners in levying the county taxes had exceeded the limit allowed by the Constitution, and also in the mode of making up the tax lists as delivered to the Sheriff This is a most important decision and will, no doubt, attract general attention throughout the State. An appeal has been taken from this decision and the matter will be carried up to the Supreme Court.

The Prayer for Frost.

BY H. C P.

Mary, myonly child,
You woke me when you cried,
Or else I should have died.
Throw all the shutters wide
To the North

Still the soft breezes come
And fill the haunted room
With flood of sweet perfume
Of perfect flower and bloom;
From the South.

My child, you were too young
To know the fearful years,
So full of hates and tears,
To see the burdened biers
Of the South.

But now the times are changed;
And for an hundred days
The Northern people prays
And blessings load the ways
From the North.

And yet, and yet we die—
I lived, I knew not how,
Six times upon the brow
I sealed my dead, and now
Your—lips—must.

The night is dark and still,
I hear the muffled feet
That hourly pass the street;
They will return, and meet
At—my—door.

I feel a cooler breath,
Perhaps, I yet may stay,
And see another day.
Ah! me, that I should pray
Against the flowers.

Yet, let the North wind rage,
Smite with the hand of mail,
Strike with the iron flail,
Bring storm, and snow and hail,
From the North.

Spare not the beauteous land,
Kill every growing thing,
Dry every flowing spring,
Bring healing in death's wing.
O! that my knell could ring—
The coming Northern king
To save the South.

The Sobering Effect.

Philadelphia Record.

Democrats should not be too much cast down They are warned and rebuked, not defeated. On March 4, 1879, they will gain control of the United States Senate, and will in all probability, retain it for many years. They will also have a majority, by the lowest estimates, of from thirteen to fourteen votes in the Forty-sixth Congress. This majority is large enough to carry proper political measures, and small enough to defeat improper ones. A party with such responsibilities upon its shoulders, and with the opportunity before it to regain the complete control of the Government two years hence, has no occasion to shed vain tears over its present misfortunes. The proper administration of the affairs of this great country is a task which no party can venture upon without trepidation. The sobering effect of the late election will serve to imbue the Democracy with a wise humility which will greatly become them.

Kitchen.

We've labored hard to beat the Rads,
But our plans all had a hitching
Until we drew on Halifax,
For the indomitable Kitchin.

Western North Carolina.

Asheville Citizen,

R. B. Justice and S. P. May, of this city, has just completed a survey of 71,000 acres of land in the counties of Madison, Haywood, and Cock county Tennessee owned by V Cusheny, Esq., who designs introducing a colony from Switzerland It is represented as being well adapted for stock raising and vineyards. Some of the finest corn and wheat in the country has been raised on the tract this year.

The tobacco interest of this section being destined, in the immed ate to future, become a business of importance and profit to our people, and forseeing that Asheville is to become a tobacco manufacturing place of no mean proportions, we interviewed

COL. S. C. SHELTON,

the pioneer of the introduction of the growth of tobacco in this locality, who gave us the following facts:

"The introduction of the culture of tobacco in Western North Carolina has proved a blessing to the community. Without a money staple, and doing almost without that necessary article, the farming interest had dragged along year after with little improvement. Little care had been taken to cultivate the grasses, and thousands of acres of forest lands were lying idle and were a burden to the owners. To clear these lands and cultivate them in corn was a losing business. In fact, it took about two years of corn crops to pay for the expense of clearing. The tobacco crop at once promised something more remunerative, and also puts the lands in splendid condition for wheat and grass. After a few years of up hill work, the intelligent became convinced of the benefit of his crop; and now our section produces an article equal in other respects, and superior in color, to the celebrated Virginia tobacco. My estimate is that Buncombe and Madison counties produced last year about eight hundred thousand pounds of tobacco. This is only the beginning of the enterprise. Large quantities of this tobacco are shipped to the Virginia markets. In fact there is only one factory west of the Blue Ridge mountains, and that factory does not consume one-twentieth of the tobacco produced. Now, the question is why don't others engage in this enterprise and manufacture all the tobacco produced? This would give labor to a great deal of our surplus muscle that wants only a chance to make it a source of wealth to our country. Furthermore if the tobacco of Western North Carolina can be shipped to Richmond and other Virginia cities, subjected to as high a tariff of freight, and then manufactured and sold at a profit. Our railroads will soon furnish us transportation to the very market that a great portion of Virginia tobacco seeks for its sale, and several hundred miles less than the Virginia stock has to travel.

Every facility would be extended to those who might see fit to come amongst us and a helping hand be offered.

Wilson Advance.

Jack Simms, col., came in town on Tuesday, election day to vote for Harris and when he arrived at the court house yard, his wife Treacy, caught hold of him and told him he could not vote for Harris, but he should vote for O'Hara. This somewhat agitated uncle Jack and he declared he would vote for Harris, as he pulled himself from her grasp and made for the polls. As he entered the court house door, Treacy says: "Neber, mine, I'll whip the very head of'en you when you get home." We expect she did too, as she was much the stronger of the two.

What the "Fraud" Thinks.

Washington Post.

To several gentleman who called on him to-day, the President expressed himself as much gratified with the success of the Republican party in the elections as indicated by returns so far received. BAPTISTS IN COUNCIL.

FORTY-EIGHTH ANNUAL STATE CONVENTION.

Judson Baptist College---The Charlotte Church---Interesting Personal Observations.

Charlotte Observer.

THIRD DAY—MORNING SESSION.

The convention met at the regular hour and engaged in devotional exercises for half an hour, conducted by Rev F B Underwood.

The following delegates reported:

Brown Creek Association—Rev J W Davis, Rev A D Davis and R H Gaddy.

Catawba River Association—W C Withers.

Central Association—Rev Hobgood.

King's Mountain Association—Rev T Dixon, Sr, and T Dixon, Jr.

Mount Zion Church—W H Merrett

Pee Dee Association—M M Bostick, T J Barber and J B Covington.

Raleigh Association—J S Allen, B B Stinson and E H Renn.

South Yadkin—D G Tatem.

The commmittee on the selection of the time and place of holding the next convention reported, recommending that the choice of the place be referred to the board of commissioners, stating that there was a reason why the place should be selected just now, which would be understood by the convention.

Rev N B Cobb, and J T Webb were added to the Sunday school board.

The committee appointed to take into consideration the formation of a minister's relief board, and suggest a plan of operation, reported that the matter, under the circumstances, was not a proper subject for public discussion.

The following were appointed a committee, in accordance with a resolution passed, yesterday, made a report on the subject of the desecration of the Sabbath by railroad companies: W B Clement, J S Bridges, E W Timberlake, Lawson, Knott and L C Dunn.

Rev Elias Dodson, laborer in the home mission field, gave this as his report of the year's work: "From November 1st, 1877, to October 31st, 1878, I have labored eleven months and raised about $850 in cash and over that amount in pledges."

The report was referred to the board of home missions.

The committee appointed to nominate preachers for the next session, reported the following:

To preach the introductory sermon, Rev R H Griffith; alternate, Rev F H Jones. To preach the missionary sermon, Rev W R Gwaltney; alternate, Rev Prof W B Royal.

The discussion of the report of the board of missions was announced as the special order for the hour.

Rev C Durham referred to the fact that the published report of the mission work did not show what the Baptists in council were doing. Many of the associations worked through their own boards, and he supposed that not one-tenth of the funds paid in for missions were shown by the reports. He believed, further, that the Baptists were not only doing more than any other denomination, but were doing more per member.

Rev N B Cobb called attention to the fact that there was another mistake made, in estimating the individual efforts of the Church; while there were, according to the statistics of last year, over 150,000 members and 1,607 churches in the State, only about 70,000 members, 720 churches and 360 ordained ministers belonged to this convention. In estimating the contribution, per capita, therefore, 70,000 members should be the basis.

The regular discussion of mission work was then begun and a number of the members participated in it, among whom were the follow: Rev J B Boone, Rev E D Davis, Prof L R Mills, Rev H W Rheinhardt, J D Huffham, Rev E M Jordon, Rev Dr T H Pritchard.

This discussion consumed nearly all of the morning hour and was very general in character, covering every kind of mission work, and the best means of advancing the Church, the general idea which prevailed being that this was the peculiar work of the Baptists.

Pending the discussion of this subject, the convention adjourned.

AFTERNOON SESSION.

Opened with prayer by the Rev E Gwyn.

Special order of the hour, Judson Baptist College. The claims of institution, located at Hendersonville, were full set forth by Rev N B Cobb. He said the building had not been completed, and that $6,000, $2,000 of which had already been subscribed, were needed for this purpose. The building of granite, three stories high and 104 feet long. He argued that is the children of the west were to be educated, it must be at home; they would not be sent east of the Blue Ridge.

Rev F W Eason also spoke for aid for this institution."

Rev. Elias Dodson read a statistical report on home mission work, which was adopted.

The special order for this hour was postpoued to allow Rev D McIntosh, secretary of the board of home and Indian missions, to address the convention in advocacy of the cause which he represents.

Dr. McIntosh, in the course of his remarks, explained that the object of the board he represented, was to provide for the preaching of the Gospel by the Baptist ministers in State doctrines were not known. It did not interfere with State missions; it aided that cause. Through the instrumentality of this enterprise, churches had been located at important points in large cities. Its work among the Indians had also been most successful. There are twenty-three Baptist churches in the Creek nation and 3,000 members. The great need now was schools for their children. The address was lengthy and contained many facts of interest and importance, which cannot be reproduced in the circumscribed limits of this report.

At the conclusion of the address, Rev E Dobson offered to be one of twenty to give $5 for this cause; others responded and the sum of $25 or $30 was raised.

The committee to whom was referred the matter in relation to the violation of the Sabbath by the railroad companies, with the resolutions of the Presbyterian synod, reported, expressing the opinion that it was inexpedient for the convention to make a petition as a body, but recommended that the citizens of the State resort to the right of petition for relief.

After some discussion the report was re-committed.

At his own request, Rev Mr. Clement was excused from setting on the committee and Rev. J. O. Turner was appointed in his stead.

The convention then adjourned.

EVENING SESSION.

After religious exercises conducted by Rev. F. M. Jordan, the president announced that the special order for this evening was the Charlotte church, and that the convention would go into a mass meeting on the subject.

The church was completely filled by citizens, including many from other denominations.

Rev. R. H. Griffith, who had been at one time and for eleven years a pastor of the church, first addressed the assembly, giving a full history of the church from its organization up to the present time, detailing the difficulties with which the first pastor, Rev. R. B. Jones had to contend when sent to Charlotte by the board of missions to endeavor to establish the church. He told how, after preaching for several years in the court house, to a mere handful of people, with only two members and they ladies, had succeeded in building a church at a cost of between three and four thousand dollars, then the handsomest church edifice in the town; that was the building in which the convention was now assembled. He went on further to describe the difficulties which they had surmounted, until finally, not satisfied with this they had built a parsonage, neat structure with eight or ten rooms. But the town had grown, other denominations had erected handsome buildings in in convenient localities. The Baptist had suffered for years on account of the distance of the house of worship from the center of the city. The members of the church were willing to do their best, but the couldn't do much. That they were zealous and liberal was testified to by the fact that they had spent $4,000 in the last eleven years in church improvements.

Rev. J. S. Purefoy, was next introduced. He referred with pleasure to the efforts which the church was making, and gave some reminiscences of the early struggles. He said he had understood that the congregation would give three thousand, and certainly that much more should be raised here to-night. The Baptist should have a house equal to any in Charlotte, and they must have it. He couldn't do much, but would guarantee 5,000 brick for the building.

The pastor, Rev. Theo Whitfield, reluctantly spoke to the assembly, on account of his relations to the church, but appealed to those present on the general ground of the necessity of charity, giving the word of the Bible, that he that gave would always have to give.

Rev Dr Pritchard after an eloquent and powerful appeal called upon those present, not members of the congregation, for contributions.

While the contributions were being made, several short addresses were delivered, touching the cost of the proposed structure, most of the speakers agreeing that it should be about $10,000.

Rev Mr Whitfield said that the church wanted as much money as it could get, and would determine upon the exact cost when it was seen what could be done.

The following is a list of the contributions made during the evening:

J S Purefoy, 5,000 brick; J W F Rogers, flooring for church; T H Pritchard, $50; J S Bridges, $50; E Iwards, Broughton & Co., $100; C Durham, $100; Chapel Hill church, $50; B G Covington, $10; C M Cooke, $50; Wake Forest church, $100; Forestville, $25; J A Stradley, $25; Oxford church, $25; W A Graham, $25; Statesville church, $10; W J Fulford, $10; Mrs W A Graham, $5; Col Wm Johnston, $100; J Luther, $25; —— Davis, $10; H A Brown, $10; W O Allen, $10; S F Conrad, 10; J D Huffham, $10; J L Clark, $10; J W Carpening, $10; W J Tolar, $10; J H Vernon, $5; Lawson Knott, $5; Henry T Knott; $5; John Killian, $5; B B Sinson, $5; John Cheek, $5; M M Bostick, $5; J L Bennett, $5; A C Davis, $5; W H Cherry, $5; J J McLendon, $5; Mrs Dr Covington, $5; Geo W Grier, $2; J H Booth, $2; E B Barrett, $2; W C Withers, $2; J T Hill, $2; Miss Fannie Luther, $2; J E W Austin, $5; Mrs S J Galloway, $5; W B Lovelace, $2; D M Austin, $5; Cash, $5 F M Jordon, $1.50; R G Gaddy, $5; Mrs G W Huntaley, $2; Mt Vernon church, $5; J J Allen, $10; H W Norris, $5; Mrs M S Query, $5; G W Harmon, $10; H W Reinhardt, $10.

This makes a total of $1007.50, besides the contributions of materials which are valued at about $150.

The convention then, after singing the doxology, adjourned.

NOTES AND PERSONALS.

Maj W A Graham makes a very acceptable presiding officer. He doesn't waste time in words.

His friends claim that Rev. Dr Wingate, of Wake Forest College, is the tallest man in the convention. There is not so much unanimity as to who is the handsomest man.

The oldest man in the convention is Rev Elias Dodson, who—don't mention it—is an old bachelor. He has been a missionary in this State and Virginia all his life and is one of the most useful men in the church.

Prof L R Mills remarked in the course of a speech that the towns of North Carolina had not given the Baptist church a single preacher now living in the State. They had all come from the country.

There are many fine voices in the convention. Revs F M Jordan and E L Davis probably have the strongest lungs.

One of the speakers said yesterday that North Carolina was an awfully scattered State Every man, woman and child could be given thirty acres of land and there would be some left over.

Rev Dr Jeter said that the greatest man in his opinion, who ever stood before a congregation, that is the most powerful preacher, was John Kerr, of North Carolina, father of Judge John Kerr, now living in the State. He was first and no one was second.

Rev Dr Huffham: "Many a fellow has gone to work and prepared a speech to make to a girl on a certain awful, critical and solemn occasion, and when he had gone, the speech had gone, but the idea was there and some how he managed to get what he went for, and is living with his wife now."

Two of the most useful and active lay members of the convention are Capt C M Cooke, member of the legislature from Franklin and a prominent candidate for Speaker of the House, and Capt Wm Biggs, editor of the Oxford Free Lance.

The Wonders of the Yellowstone Canon and the Faymous Geysers in the Park.

Chicago Times

A gentleman holding a prominent connection with Professor Hayden's geological survey is detained at the Grand Pacific Hotel by the illness of his wife. To a representative of the Times who called upon him yesterday he gave an interesting account of the operations and adventures of the expedition in the Yellowstone country during the past summer. When he left the Rocky mountains all but one of the different divisions comprised in the expedition had returned to the usual rendezvous, or winter headquarters, at Cheyenne, whence the members of the scientific corps will proceed to Washington to elaborate the field-notes into reports, embracing maps, charts, and various other illustrations descriptive of the region traversed.

This party of scientists took to the field in July. There were forty men in the different divisions, and eighty animals were required to transport provisions, instruments, and personal effects. The season's work, as a whole, has been highly satisfactory. The field of operations covered the most interesting portion of the Rocky mountains lying in Wyoming, Idaho, and Montana Territories, out of which flow many streams of indispensable importance to the miner, the stock-raiser, the agriculturist, and the tourist. The territory covered embraces the Yellowstone park, in which the investigations of the explorer may be at all times most usefully prosecuted. Especial attention was given to this area, and the survey of it is now complete. This spot abounds in

THE MOST PHENOMENAL WONDERS,

the fame of which has spread to the utmost ends of the earth. The examination of the whole district was thorough. Carefully detailed observations, locating all the geysers, hot springs, and mud volcanoes, were recorded, and will be used in the preparation of charts. Numerous sketches and photographs were also made, and the temperature of each of the springs and measurements of their dimensions were accurately ascertained. It is calculated that the material and data collected will enable the survey to make a report, and charts, so accurately describing the park that any changes by vandalism or natural causes in the curious features hereafter, may be readily detected. While this work was being performed by one branch of the expedition, other divisions were engaged in an examination of adjacent districts. The party having charge of the primary triangulations covered an area during the season of about eighty thousand square miles. The height of over one hundred and fifty mountain peaks were determined. The highest of these are from ten thousand to fourteen thousand feet above sea level. Fremont's peak and Mount Washburn are among the very tallest.

The expedition endured many hardships, and met with many thrilling adventures. The crossing of the swift mountain streams in that region was often attended with extreme peril to both human and animal life. The animals were frequently led among the most dangerous defiles. One mule bearing a heavy pack missed its footing and tumbled over a precipice sixteen hundred feet high. The men peered over the brink and saw a pile of

BONES AND MULE MEAT

at the bottom, but no time was spent in efforts to recover the pack. Wild game abounded, and the men could sit by their camp-fires and shoot moose, elk, deer, and bears. The grand canon of the Yellowstone was explored by professor Hayden, who had penetrated it once or twice before in former years. The gorge is 3,000 feet deep, the walls being almost perpendicular. It is so dark at the bottom of this awful chasm that stars are plainly visible in the sky at any hour in the day. The loneliness of the place is dreadful. Waterfalls are numerous. The four highest and grandest ones are called the Tower, Shoshones, an Upper and Lower Yellowstone falls. The Lower fall has a plunge of nearly 400 feet. The others average about 100 feet. The average width of the river in the canon is less than 600 feet. The celebrated geysers were re-examined by Professor Hayden to ascertain whether the phenomena had developed any new features.

"OLD FAITHFUL,"

the largest of the group, is still subject to hourly eruptions, the intervals of activity occurring as regular as the ticks of a clock. When at work "Old Faithful" projects a stream of boiling hot water two hundred feet in the air. The party camped for several days within sixty yards of this geyser, the wild temperature of the spot greatly mitigating the rigors of the weather, which was severely cold and tempestuous, snow having fallen to the depth of two feet in some localities.

DAILY NEWS

SUNDAY, ... NOVEMBER, 10, 1878

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Stree

A perfectly natural sequence of Tuesday's work in New Jersey is the destructive fire reported in our last night's telegrams.

ALL that saved Gov. Armfield, we are now persuaded, in the 7th district was a little fellow by the name of Brower, whose piteous cries for "relief" alarmed the people.

ANXIOUSLY do we await the news from the 8th Congressional District. True Gen. Vance had no opposition, but did he receive enough Democratic votes to elect him? How is this thing, anyway?

THE New York World devotes two columns to the "Stewart sacrilege" and a painfully brief paragraph to Tuesday's election. By Monday, it hopes to be able to say whether the Democratic majority in the 46th Congress is four or more.

One of the results of the "National" movement in North Carolina, is the election of Russel, Radical, over the gallant Waddell, in the 3d district.—Concord Register.

An egregious mistake the Register has made. The election of Russell is due to the absence from the polls of 2,000 Democrats.

A Safe Majority.

What the Democratic majority will be in the next House the News does not pretend to know. As a purveyor of news we give the best and latest. Friday's Washington Post summarizes:

The chances of the election of Wilson and Allen in Illinois, of Blair in Kansas, of Poehler, in Minnesota, of Ross in New Jersey, of Deale in Nevada, of Waddell in North Carolina, of Curtin and Klotz in Pennsylvania, of Barrow and Kiug in Wisconsin—all Democratic Congressional candidates—are, to say the very least, very favorable. If, however, the Republicans should elect in all of these districts, there is still a Democratic majority of seven in a full House, with five vacancies to be filled—one from New York and four from California. The House is composed of 293 members, and the Democrats have already elected 150, with eleven districts, as above described, in doubt, and five districts yet to hold elections. Whatever may be said to the contrary, the Democrats will control both branches of Congress by a safe majority.

Attention! Leaders!

It is impossible, thinks the Baltimore Sun, that party leaders can mistake the lesson of Tuesday's election. These are times when the popular faith needs to be strengthened and encouraged by a recurrence to old and established principles. To be derelict at such a time is to forfeit all claim upon the popular confidence and respect. This is true of individuals and true of parties. It is illustrated in the case of both in the result of Tuesday's elections. To the Democratic party the lesson is especially valuable, coming as it does long enough before the next presidential election to enable them to profit by the experience of the recent canvass and to retrace the dangerous steps which, but for a solid South, would have left them in a minority in the next Congress. At the same time there is no encouragement in the result to the Republican party to hope for further success, either from persevering as a sectional party or arrogating to itself the title of the sole hard-money, or rather sound money, party of the country.

The Solid West.

The News heartily congratulates the tried Democracy of the glorious Fifth and its able and peerless champion. The zealous and untiring chairman of the Democratic executive committee of the Fifth Congressional District, Capt. Geo. H. Gregory, sends the following:—

Greensboro, N. C. Nov. 0.—Three cheers for the Fifth District! "Old Guilford" at the head of the Democratic column.

OFFICIAL VOTE—SCALES'	MAJORITIES.
Guilford,	581.

Rockingham,	460.
Randolph,	435.
Alamance,	379
Davidson,	272.

Tourgee carries Caswell by 185.

One township in Guilford not returned would have increased Scales majority.

GEO. H. GREGORY, Cham' Dem. Con. Com.

Another Sacrifice.

This time it is Jesse J. Yeates. This is the holy Sabbath day. We forbear any comment:

Yates has the following majorities:

Currituck,	136

Hyde,	160
Martin,	109
Pitt,	124

Martins majority, 262.

And it Has Come To This.

Yesterday's Wilmington papers publish the protest of "John T Flowers, W P. Holland, Elisha Williamson, members of the National Greenback party." They say:

"Having noticed in an extra on the streets yesterday, having evidently been issued by leading Republicans in Wilmington, claiming the election of Hon. Daniel L. Russell as a Republican victory, we hereby denounce the assertion as a wilful perversion of the facts. As is well known, Judge Russel announced himself as a Greenbacker and in doing so went to as great lengths, so far as the principles of the party are concerned, as any man among us. On the strength of this announcement he was endorsed by our party and received and accepted the nomination for Congress at the Convention of the Greenback party held in this city.

We care nothing as to what the Republicans in this city may think. They voted for our candidate; we did not vote for theirs. This was our assumption. We acted in good faith and if we have been deceived then were we made the victims of as mean and contemptable a conspiracy as has ever disgraced the annuals of politics in North Carolina." Poor fools!

Superior Court Clerks.

"Our Superior Court Clerk (and a very good one) writes us in regard to the proposition to reduce fees, and say that if fees are further reduced many of the clerks of the State cannot make a decent living by their office. He says a clerk is required to stay in his office every day, and often five days of the week are occupied with answering questions and doing charity work, without receiving a single fee. He suggests that many of the clerks would be willing to take a stated salary of five or six hundred dollars (instead of fees) and be glad to get pay in that way, as some clerks do not get over four hundred dollars a year for their services. No doubt there is a good deal of truth in what our correspondent says."—Charlotte Democrat.

We have no doubt that much truth is contained in the above, yet we believe that the Legislature can make many wholesome changes in the present law regulating fees.—Goldsboro Mail.

Let the clerks alone. They do more work than all the other county officers and have big responsibility upon them.—Reidsville Times.

The NEWS is daily in receipt of letters and suggestions of like import. As the advocate of cheap and economical government the NEWS will urge upon the Legislature a reduction of all salaries, fees and expenses compatible with the public interest. Suggestions from clerks, sheriffs, and other officials interested will be kindly received by the NEWS.

The Carpet-Baggers Doom.

Macon Messenger.

Tuesday was fatal to carpet-bag representation in the United States Senate. Conover, in Florida, and Patterson, in South Carolina, were doomed. Spencer, in Alabama, received sentence at the election last August. The last one of the carpet-bag tribe of adventurers who engineered themselves into the Senate by corrupting negro suffrage will disappear with the advent of the 4th of March next. No man not as corrupt as themselves will mourn their final disappearance from the stage of action.

To the infamous trio please add Albino Tourgee.

To an already well established reputation, are constantly added the warmest praises of travellers who have enjoyed the hospitalities of the Grand Central Hotel, New York. *

VEGETINE
will Prevent and Cure
PARALYSIS.
ENJOYED A GOOD NIGHT'S REST.
SO. LAWRENCE, MASS., April 30, 1877.
MR H. R. STEVENS:—
Sir:—Some five years ago I commenced taking Vegetine. At that time I had had a shock of Paralysis, and could not walk across the room without assistance. I found great relief from it at first, but discontinued the use of it again, and am now able to do my own work, and am washing to-day. I had taken large quantities of morphine, and was unable to sleep. I have found Vegetine to be a great quieter of the nerves, and after taking it have been able to enjoy a good night's rest. I believe it to be a good medicine, and cheerfully recommend it to others.
A. S. ROBERTS,
No. 1 Kingston Court, Lawrence, Mass.
Nervousness, and all derangements of the nervous system, are usually connected with a diseased condition of the blood. Debility is a frequent accompaniment. The first thing to be done is to improve the condition of the blood. This is accomplished by taking Vegetine. It is a nerve medicine, and possesses a controlling power over the nervous system.

I Have Seen the Remedy Tried, and Know it is Good.
NEWPORT, KY., April 27, 1877.
H. R. STEVENS, Boston Mass.:—
Sir:—Having sold and recommended your medicines for the last three years, perhaps you would ask why I should recommend them. I will answer, by saying, that I saw such beneficial results in a young friend who has been afflicted with a disease for two years, which was brought on by his own imprudence; and he had taken but one bottle when it showed its power to successfully fight the evil, so that I have always recommended it to young friends with bad blood. If you wish to use this as reference, why, I say you can do so, as I have seen the remedy tried and know it is good
I remain, yours very respectfully,
G. M. MILLER,
P. O. Box 473 Newport, Ky.
VEGETINE.—For eradicating all impurities of the blood from the system it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

WILL CURE DROPSY AND DYSPEPSIA.
WALNUT HILLS, April 16, 1877.
H. R. STEVENS, Esq.:—
I have much pleasure in informing you that, after seeing the perfect cure of a three-years old case of Dropsy by a friend of mine, I tried to get cured of an old trouble of mine, Dyspepsia. The use of four bottles of Vegetine, according to your directions, was a great success, and I am free of my old enemy. The use of your Vegetine has effected a perfect cure.
Respectfully yours,
L. W. DAVIDSON,
Walnut Hills, Cincinnati, O.

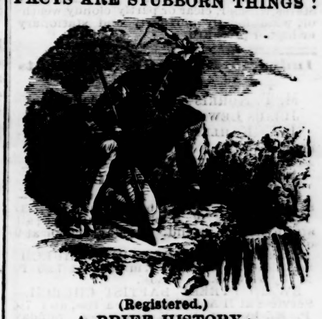
HOME REMEDY.

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!



(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs. Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Not any did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. —— wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless those old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with twenty-five running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. AS A TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully,

T. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs. Person's Remedy I was very weak, complexion sallow, and now I am WELL,

Respectfully your friend,

MRS. H. L. BROWN.

Sept. 26, 1878.

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS. JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,

JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood, and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years, and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,

JOHN BURR, Box 141.

The City Market.

Prof. C. Battle Fowler, keeper of the Market, reports that during the week ending yesterday the following were exposed for sale: Beeves, 93; hogs, 159; sheep 27; sausage 3429 pounds. Butter has been plentiful and tolerable in quality at 20 and 25 cts. Eggs have been abundant at 15 to 20 cents, while chickens have sold at 12½ and 15 cents each. The market has been pretty well supplied during the week, but some of the beef shown was rather too leathery.

The Charlotte Fair.

The Charlotte Fair begins on Tuesday. Quite a number of persons express their intention to be present. The good people of that city have, with their usual energy, spared no pains to have all things set to rights, and the exhibition will doubtless be one of the best ever made there. South Carolinians will be on hand in crowds. The Second Regiment of the State Guard will be there in strength, and probably visiting military from South Carolina. Valuable prizes are offered. The N. C. Railroad will put tickets on sale from this point at 3 cents per mile each way. It is hoped that Raleigh will be well represented.

The Theatre--Louise Pomeroy.

This talented artiste appears tomorrow evening in the brilliant play of the "Adirondacks," which was written expressly for her. The lady is ably supported by Edward's Dramatic Combination, which is composed of a number of fine performers. Among these may be mentioned the charming soubrette, Miss Estelle Mortimer, and W. H. Leake, Edwin Brown, Jas. L. Mason and J. M. Charles. The play has been selected with particular care, and is neither morbid nor sensational. The commendations of the press in regard to this troupe appear to be merited. It is but natural that the public here, to whom Miss Pomeroy comes a stranger, should desire some knowledge of her merits and those of her troupe, and it is hoped that all will be pleased with the play and its performance.

A Fainting Fit.

Yesterday afternoon a young man, while walking on the pavement just below the Yarborough House, reeled and fell in a fit. Some bystanders rushed to his aid. When placed in a sitting posture he soon recovered consciousness, but a moment after he had a violent hemmorrhage, a torrent of blood pouring from his mouth. The flow of blood was brief in duration, and the sufferer was taken to the station house, where he was attended by a physician. The young man, who was well dressed, and pleasant in appearance, gave his name as C. A. Summers, and his residence at Richmond, Va. He was in the city on business. In the course of a hour he was able to walk, and took his departure.

The market fluctuated during the past week. It opened at 7 1-8c and was quiet for several days, and then an active export demand came in and the market has been very active closing at 8 3-8 to 8 1-2 for middlings. It will be seen that our receipts have fallen off for the past few weeks as compared with last year, but have increased our receipts of 1876.

The Coming Circus.

Next Thursday the Great London Circus and Sanger's British Menagerie strikes this city. Elsewhere is the announcement. Speaking of their circus, the New York Times says: "The arenic performance included all the leading features of the former entertainment, and, in addition, many novel and unique feats. Among them may be mentioned the juggling equestrian act, by Miss Pauline Lee; the comical bareback-riding monkey, and the reappearance of James Robinson, the bareback champion. M'lle Elise Dockrill was welcomed back to the scenes of her former triumphs with an enthusiasm that only such an accomplished artist can awaken. Her performances are marked by all the skill and grace which characterized them in her former all too brief engagement. Mr. Dockrill's single manage act with the trained horse "Ellington," drew round after round of applause. Altogether, the entertainment last night was a grand success. The menagerie contains a good collection of wild animals, and other, not less wonderful, though familiar beasts."

I see by the News that Gimlet and Corkscrew have been to see Brewster to buy hardware; having been there to buy other goods. I find tinware and crockery in abundance and all very cheap; in fact, so cheap that I nearly bought myself rich. But I will tell you what is a fact, Brewster's goods were so cheap and he had so many of them, that I spent all my money and couldn't go to Weikel's, but will go and see him soon and have a talk about Corkscrew and Gimlet. Quite a Mistake.

We said in yesterday's paper that "all the grocers in town say their customers will not use any other Baking Powder but Jones' Unrivalled." This was quite a mistake, as the Patapsco Baking Powder has a great reputation here, and nearly every grocer in town keeps it in stock, and the demand for it is daily increasing. A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages. Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. Lumsden has a grocers' scoop that is made of extra heavy tin and has an iron handle to it, with a sharp point for breaking and loosening sugar, etc., when it becomes hard in the barrel.
